mastoiditis, and calls in Dr. Clarke, who lives nearby. The latter orders an immediate operation, and Dr. Bullard is called home at once. Mrs. Bullard insists that her husband perform the operation, but he refuses because of professional ethics forbid such procedure. She insists, however, and he does the work. While performing his delicate task a vision of Mrs. Sands appears to Dr. Bullard and he makes a fatal stroke with an instrument, causing the death of his wife. He rushes to Mrs. Sands. "I said 'divorce,' not death," she says as she turns away from him. "Who's guilty?" Temple tomorrow only.

Cosy Tuesday and Wednesday. "As a physician ever the right to take human life? This is the theme of the strong play "Doctor Neighbor," which is presented as a Red Feather Production. The play was written by Agnes Hay, and produced for the Universal by Lloyd B. Carleton, with Hobart Bosworth in the title role. The theme is one of enthralling interest at all times, and special attention was drawn to the question recently by the celebrated case of the Chicago mother who gave permission to her physician to put a merciful end to her defective child. The question is handled in a very large way in this photo-drama, and the decision, at least of the characters concerned in it, is the orthodox one, that the doctor has no right voluntarily to end a human existence, no matter how agonizing it may be, and no matter how the faculties of the patient may be impaired.

**MARY PICKFORD IN MARVELOUS ROLE**  
Plays American Girl Kidnaped by Italians in "Poor Little Peppina," Thrilling, Romantic Drama.  
Mary Pickford as an Italian boy! The delightful little Japanese Choo-Choo-San, in "Madame Butterfly," has shed her sandals and her kimono for the rough boots and corduroy of the Italian peasant, and she laughs, fights and smokes her way into the heart just as the little Japanese sobbed her way into the affections of the public. And just as the Famous Players star so cleverly concealed her own mannerisms in the interpretation of the Jap girl, so in this original photoplay by Kate Jordan, which will be the Paramount attraction at the Alta Sunday and Monday, Miss Pickford buries the Pickfordian character beneath an avalanche of Italian mannerisms and of boyish conceptions that once more prove her wonderfully broad versatility.  
"Poor Little Peppina" is the biggest and most thrilling original story in which Miss Pickford has ever been seen on the screen. Opening in Italy the scene of action changes to Sicily and then, when the kidnaped American girl makes her escape as a stow-away, dressed as a boy, New York supplies the setting for the rest of the action. Here the little runaway, still preserving her disguise, becomes a "newsie," a bootblack, a fruit vendor and a messenger boy. But her adventures narrowly escape coming to a very sudden end when she becomes employed in an opium den in which she again encounters the man who had stolen her several years before.
